

Dear [name of friend or family member],

I am writing to let you know that I need a kidney transplant.

The doctors told me that the best kind of transplant is from a living donor.

They said that I should let my friends and family know about my situation because you never know who might want to donate.

I didn't know much about kidney donation, but my doctor suggested a website, www.transplantinfo.com, and I got some good information from there.

A living donor could be a family member, a friend, or even a stranger who wants to help out.

If you or anyone you know would be interested in being a donor, please contact the [transplant center name] at [center email] or [center phone]. There's no obligation to donate and your call will be kept confidential.

With a living donor, the transplant can happen quickly and give [patients name] the best option to live a longer healthier life.

Feel free to give me a call or email me if you have any questions.

Sincerely,

[Your Name]
